PROJECTS

• **B. Tech Project: DESIGN AND DEVELOPMENT OF GANTRY ROBOT FOR NURSERY SEED SOWING APPLICATION**

The project presents the design and implementation of a gantry robot, which performs seed sowing mechanism for nursery use. Seed sowing manually is the inefficient flaws and it becomes less productive, slow and non-flexible processing when it comes to manual mechanism. To overcome this problem a 3-axis rectangular plane gantry robot is introduced, which can perform the seed sowing application quickly and efficiently.
