## ITEM PARTICULARS

## TECHNICAL SPECIFICATIONS

Enquiry No: - RGIPT/JAIS/E-OPN/LAB/2019-20/70 Date: 22.11.2019

PC controlled micro-processor based Isoperibol bomb Calorimeter to determine gross calorific value of various solids (different grades of coal/coke/lignite) and liquid of fuels (HFO & LDO) in compliance with international standard methods. The equipment should be compact, integrated and bench-top model to run with PC. The analysis method should comply BIS/ASTM/ISO/DIN standard test method for gross calorific value of coal and coke. The value of gross CV should be reportable in Kcal/Kg or other internationally accepted units.

The instrument should compatible & controlled by Microsoft windows based PC and properly interfaced printer with LCD color graphic touch screen display of the final results on the screen of the instrument, fast hard copy printing facility and adequate memory storage facility. Instrument should be capable for the corrections like fuse wire consumed, moisture correction, elemental correction (nitrogen and sulphur), spiking, ash, acid etc. to arrive at automatically corrected Calorific Value. The system should have facility to use fuse-wire /Cotton Threat Bomb (Combustion Vessel).The equipment should be easy to operate. Besides Data should be transferred to PC for massive storage and interpretation of results.

The instrument should have following specification:

Isoperibol Bomb Calorimeter for high precision & rapid determination of gross calorific value of coal/ coke / lignite/ oil and food products in compliance with international standard methods.

**Sample Weight-** 0.6-1.5 g

**Range of GCV** – up to 8000 or more cal/g

**Precision** - ≤ 0.1 % or better RSD with 1 gram Benzoic acid only

**Temperature resolution:** 0.0001°C

**Calibration Facility-** Auto/Manual using the certified standard

**Operating Temperature:** Room temp. 30 °C or more

**Analysis time** – Analysis time should be less than 10 min in isoperibol

**Correction facilities** – User selected option for the correction for acid or % Nitrogen, fuse wire, sulphur, moisture, spiking, ash and hydrogen.

**Combustion vessel/bomb** – The calorimetric bomb should be highly resistant to corrosion and certificate for safety of bomb under high pressure as per ASTM E144 or equivalent related International Standard should be provided. Test certificate should be supplied with the instrument. The instrument should identify the bomb vessel automatically. One extra Bomb assembly complete must be supplied with the instrument. Bomb and bucket should be removable. Bombs assembly should be OEM make and identical in all respect including safety compliances.

**Crucible** – Only base metal alloy make has to be supplied. The number of crucible supplied must be sufficient to analyze 5000 samples.

**Operation** – System must be operated through compatible PC with the Windows based Original software for real time temperature, method of storage, graphic display, perform all calculations and also have a provision for entering instructions /operations through key board. Instrument should have the facility to

interface with the balance, computer and printer. Instrument software should be compatible to multiple instrument control from the same PC. All the software must function under windows 7 or higher version.

**Application/ Utility software** – Software should be original and compatible with the instrument and PC. User friendly for the operation of calorimeter data and administrative data. A copy of software to be provided. If updated version of software is available then Upgraded version of the software will be arranged by the vendor free of cost

**Diagnostic** – The system should have in-built diagnostic facility to undergo self-diagnosis to direct/ investigate like checking the fuse wire/ ignition wire, bomb leaks or any other fault prior to start or during the test.

**Jacket Type** – Water Jacket where temperature should be maintained an accuracy of  $\pm 0.1^{\circ}\text{C}$  as per ASTM standards. Should be built in with closed loop water circulation system for maintenance of Jacket Temperature as per ASTM

**Water Handling System** – System should have integral (could be in built/external), close loop water handling system, which has automatic measuring of water, filling and drainage of water and for maintaining the constant jacket temperature. The water handling system/Chiller must be Original Equipment Manufacturer (OEM) made.

**Sample type:** The system should be capable for directly analysis of powdered coal/pellet sample/liquid sample

**Gas filling** – System should have automatic combustion gas filling facility with auto shut off with essential accessories like regulators and pressure gauges. Filling, Venting and flushing should be automatic.

**Balance** – Mettler/ Sartorius make balance having auto calibration facility and sensitive to 0.1 mg should be supplied with the instrument.

**External PC and Printer** – Compatible branded Computer (Dell/ HP) having processor i5 or better, 2 TB HDD, 16GstaB RAM, original latest compatible windows OS, 24" TFT/LED colour monitor with minimum 5 USB ports, MM keyboard, optical mouse or equivalent model computer which support the utility software. One LaserJet printer with auto-duplexing facility and 16-20 ppm (for both B&W and colour), compatible to the supplied computer, should be provided.

**Application/ Utility software** – Software should be compatible with the instrument and PC. A copy of software to be provided. If updated version of software is available, the same should be replaced without additional cost.

**Result** – The results of GCV should be saved in the HDD and can be retrieved and printed.

**Gas cylinders and regulators** –Two new gas filled 47.7 litre water capacity steel cylinder, each for oxygen and nitrogen (as may be required for calorimeter operation), with SS double stage regulators (Swagelok/Or Equivalent Imported Regulator only) should be supplied with the main instrument along with the calibration certificates. Pellet press to be supplied with the instrument, wherever applicable.

**Online UPS:** 3 KVA online UPS suitable for operation of the equipment of reputed brand APC/EMERSON/Microtek for minimum 30 minutes power back up along with Exide/ Amaron maintenance free batteries. UPS & batteries should have 3 years comprehensive warranty.

**Standard/ Certified reference material** – Minimum 3 Nos. of Australia/ UK/ USA coal standard/ India certified reference material High/Medium and Low range weighing at least 100 g each to be supplied along with their code number.

Benzoic Acid CRMs Tablets minimum 200 tablet to be supplied. The details of certified values on moisture, ash, GCV etc. must be provided (traceable to NIST). Both the CRMs are required.

**Consumables** – Benzoic acid, crucibles, thread, fuse wire, O-rings, filters and any other consumables for 5000 samples regular operation should be provided. Additionally, gelatin capsules for 500 samples should be provided for analyses of liquid hydrocarbons. 1 no. bomb cleaning station along with basic instrument. List of consumables should be provided.

**Warranty** – Comprehensive Warranty for three years including Spares, Consumables and Service Engineer charges must be included from the date of completion of installation.

**AMC** –AMC for 3 years after completion of 3 years warranty period may be separately quoted (Optional Item).

**User List** – The vendor should submit at least 3 latest past purchase orders of the quoted model preferably issued by CSIR- Lab/ Institutes/ PSUs/ Govt. Organizations/ Govt. funded academic institutes along with a list of existing users.

**Documents** – **Two** sets of Operation and service manual, Calibration certificates of instrument & balance should be provided with the instrument. The bidders are required to submit soft copies of their bids electronically on the e-tender Portal, using valid class 3 Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the e-tender Portal, prepare their bids in accordance with the requirements and submitting their bids online on the e-tender Portal.

More information useful for submitting online bids on the e-tender Portal may be obtained at:

<https://rgipt.euniwizarde.com>.

## REGISTRATION

1. Bidders are required enroll on the e-Procurement Portal (URL: <https://rgipt.euniwizarde.com>) with clicking on the link "Online bidder Registration" on the e-tender Portal by paying the Registration fee of Rs.2360/- Per vendor/per year.
2. As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
3. Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication with the bidder.
4. Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (**Only Class III Certificates with signing + encryption key usage**) issued by any Certifying Authority recognized by CCA India (e.g. Sify / TCS / nCode / eMudhra etc.), with their profile.
5. Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
6. Bidder then logs in to the site through the secured log-in by entering their user ID /password and the password of the DSC / e-Token.
7. **The scanned copies of all original documents should be uploaded on portal <https://rgipt.euniwizarde.com>**

## SEARCHING FOR TENDER DOCUMENTS

1. There are various search options built in the e-tender Portal, to facilitate bidders to search active tenders by several parameters.
2. Once the bidders have selected the tenders they are interested in, you can pay the form fee and processing fee (NOT REFUNDABLE) by net-banking / Debit / Credit card then you may download the required documents / tender schedules, Bid documents etc. Once you pay both fee tenders will be moved to the respective 'requested' Tab. This would enable the e- tender Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

## PREPARATION OF BIDS

1. Bidder should take into account any corrigendum published on the tender document before submitting their bids.
2. Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid.
3. Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF formats. Bid Original documents may be scanned with 100 dpi with Colored option which helps in reducing size of the scanned document.
4. To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Documents" available to them to upload such documents.

5. These documents may be directly submitted from the “My Documents” area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

## **SUBMISSION OF BIDS**

1. Bidder should log into the website well in advance for the submission of the bid so that it gets uploaded well in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
2. The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document as a token of acceptance of the terms and conditions laid down by RGIPT, Jais.
3. Bidder has to select the payment option as “e-payment” to pay the tender fee / EMD as applicable and enter details of the instrument.
4. Bidder should prepare the EMD as per the instructions specified in the tender document.
5. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BOQ file, open it and complete the white Colored (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.
6. The server time (which is displayed on the bidders’ dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
7. All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid opener public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
8. The uploaded tender documents become readable only after the tender opening by the authorized bid openers.
9. Upon the successful and timely submission of bid click “Complete” (i.e. after Clicking “Submit” in the portal), the portal will give a successful Tender submission acknowledgement & a bid summary will be displayed with the unique id and date & time of submission of the bid with all other relevant details.
10. The tender summary has to be printed and kept as an acknowledgement of the submission of the tender. This acknowledgement may be used as an entry pass for any bid opening meetings.

## **ASSISTANCE TO BIDDERS**

1. Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.
